AI-Powered Infrastructure Digital Twin Structural Inspection Report

Report ID:	BENCH-TEST
Date:	February 28, 2026
Structure:	N/A
Health Index:	62/100 (Grade: D)
Status:	Fair

Executive Summary

.

Defect Analysis

ID	Type	Severity	Confidence	Method	Code Reference
	crack	7.5/10	0%		

Code Compliance & Risk Assessment

Compliance Status:	Partial
Total Violations:	0
Risk Score:	55/100
Risk Level:	Moderate

AMD Technology Stack

AMD Instinct MI300X	Model training (ROCm 7.2)
AMD Ryzen AI NPU (XDNA)	Edge inference for perception models
Vitis AI Quantizer	INT8 model optimization
ONNX Runtime + Vitis AI EP	NPU deployment runtime
AMD GAIA Framework	Multi-agent orchestration
Lemonade (TurnkeyML)	LLM optimization pipeline
Ryzen AI Software v1.7	Local AI runtime (16K context)
AMD CVML Library	Depth estimation pipeline
Ryzen AI Max+ iGPU	3D reconstruction acceleration
Genesis Simulation Engine	Digital twin physics
Vulkan Backend	GPU rendering optimization
PyTorch (ROCm) + TunableOp	Training kernel optimization
